## EARTH AND BELOW

Anaphora Literary Press. Paperback. Book Condition: New. Paperback. 112 pages. Dimensions: 8.9in. x 5.9in. x 0.5in. Listed as one of the BEST HOLIDAY BUYS FOR POETRY 2013 in the November issue of Washington Independent Review of Books. *Earth and Below* is an illustrated story based upon a history of copper mining, along with discursive riffs on the nature of the element. It is, in a sense, everything one ever wanted to know about copper. The subject matter is organized by Struggles, Theories, and Materials. Struggles most directly addresses the labor issues involved in the history of attempts to organize copper workers and their working conditions, but includes other themes of struggle as well. Theories contains work that explores how differing outlooks, most commonly class-based, but not exclusively so, impacted upon the lives of copper workers. Lastly, Materials looks at copper and copper mines as objects in a larger world. This is a harrowing, intense book. It carries on the great work and vision of Muriel Rukeyser's *Book of the Dead* on a global scale. Poet and sociologist Susana H. Case has written a deeply moving elegy of loss and a sustained indictment of the copper mining industry from Chile to Calumet, Rhodesia to Boston. Her prose poems and selection of photographs give voice to human suffering in unforgettable ways, as if etched in acid on a copper plate. It takes courage just to read this book. --Anthony DiMatteo At a time when the fundamental rights of workers are in peril, Susana H. Case's unflinching *Earth and Below* investigates the rarely seen lives of those who mine the earth at great personal risk and compels us to look anew at the goods unearthed from their work. Although Case employs a wide range of voices, time periods, and locales, her focus is on the individual, the family, and...
