MIT Press Ltd, United States, 1993. Paperback. Book Condition: New. 232 x 204 mm. Language: English . Brand New Book. Based on a fifteen-year study of manuscript sources from Europe and North America, *Opening the Gates of Eighteenth-Century Montreal* focuses on the interrelationships of three key elements of Montreal's urban form: its fortifications; the ownership, distribution, and use of property within its walls; and the nature of its buildings. The first section of the book, *Fortifications*, traces Montreal's development as one of the most important military and commercial centers of the French colonial network arching from Louisbourg to the Great Lakes and down the Lake Champlain and Ohio corridors. It also discusses the related development of the town's fortifications. *Town*, the second section, examines how Montreal's diversifying economic activities - many connected with the building, maintenance, and supply of inland military posts - influenced land use and building within the walls. The last section, *Buildings*, focuses on the urban house, Montreal's principal building type in the eighteenth-century, examining it in its material and social environments: morphology of town and fortifications, distribution of institutional buildings, and formative legal traditions -- metropolitan French above all, but later also British and American....
