Broadway, 2002. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: The world remembers Edison, Ford, and the Wright Brothers. But what about Philo T. Farnsworth, the inventor of television, an innovation that did as much as any other to shape the twentieth century? That question lies at the heart of *The Boy Genius and the Mogul*, Daniel Stashower's captivating chronicle of television's true inventor, the battle he faced to capitalize on his breakthrough, and the powerful forces that resulted in the collapse of his dreams. The son of a Mormon farmer, Farnsworth was born in 1906 in a single-room log cabin on an isolated homestead in Utah. The Farnsworth family farm had no radio, no telephone, and no electricity. Yet, motivated by the stories of scientists and inventors he read about in the science magazines of the day, young Philo set his sights on becoming an inventor. By his early teens, Farnsworth had become an inveterate tinkerer, able to repair broken farm equipment when no one else could. It was inevitable that when he read an article about a new idea -- for the transmission of pictures by radio waves--that he would want to attempt it himself. One day while he was walking through a hay field, Farnsworth took note of the straight, parallel lines of the furrows and envisioned a system of scanning a visual image line by line and transmitting it to a remote screen. He soon sketched a diagram for an early television camera tube. It was 1921 and Farnsworth was only fourteen years old. Farnsworth went on to college to pursue his studies of electrical engineering but was forced to quit after two years due to the death of his father. Even so, he soon managed to persuade a group of...
