Brand New Book ***** Print on Demand *****.The Dark Conscious: Conclusion to The Seagu11 Project completes the challenging journey of the spaceship Schwartzschild, en route from its 26,000 light-year passage to the Milky Way s central black hole. Having completed the goal of the original mission, the Schwartzschild crew is now forced to unlock the ultimate secrets of the conscious universe. At the end of The Seagu11 Project (Volume 1), an alien race had abducted fellow crewmember Lyle Turk. In this second and final volume of the Seagu11 series, the aliens have isolated Turk s brain from his physical body and unwittingly unleashed the unbounded powers of his dark conscious mind. Specifically, Turk discovers entry into the bewildering labyrinth of the cosmic consciousness and finds that the human mind harbors powers beyond our wildest dreams. The Dark Conscious describes Lyle Turk s journey through the only options possible for a deranged mind separated from its physical body. When the Schwartzschild crew begins suffering nightmares involving their former colleague, they find themselves the targets of an intrusive force that they are unable to control. The Dark Conscious explores the scientific mechanisms that explain human thought-revealing also its surprising vulnerabilities. Might mental disorders result from the human brain s ability to intercept the ambient, pernicious wavelengths that constantly pervade our environment? The Schwartzschild crew investigates this possibility as they struggle with their personal metaphysical ideologies and weaknesses. All questions raised in The Seagu11 Project are finally put to rest in this scientific culmination to the Schwartzschild s mission. In this finale to The Seagu11 Project, Dr. Baumann utilizes recent scientific advances to expand the traditional boundaries of human thought, evil, and mental illness-beyond those recognized by conventional...
